DETAILED ACTION

Response to Amendment

This Office Action is in response to the After Final amendment filed on February 5, 2007.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas Beaton on February 13, 2007.

The application has been amended as follows:

Regarding claim 21, line 5: Between "housing" and "configured", insert – containing a fluid supply source, the housing –.

Regarding claim 21, line 7: Delete "self-contained,".

Regarding claim 21, lines 9-10: Replace "a supply of fluid" with – the fluid supply source –.

Art Unit: 3739

Regarding claim 28, line 3: Replace "the at least one chamber" with – the fluid supply source –.

Regarding claim 29, line 4: Replace "the at least one chamber" with – the fluid supply source –.

Regarding claim 30, line 13: Replace "a supply of fluid" with – the fluid supply source –.

Election/Restrictions

Independent claims 1, 21, 27, and 30 are now in condition for allowance. Therefore, the Election requirement has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Thus, claims 7-13, 15-20, 22-26, and 32 are no longer withdrawn from consideration because the claims require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Art Unit: 3739

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

Claims 1-32 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding independent claims 1, 21, 27, and 30, Rigby, Wood, and the prior art do not disclose or suggest a housing supporting an electrode, wherein the housing contains a fluid supply source as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
